**Hull-York Lakeland RC&D Council
2010 Plan of Work**

Foreword: The Hull-York Lakeland Resource Conservation and Development Area was authorized for planning on November 10, 1965. The Secretary of Agriculture approved the plan on October 15, 1966. It is the oldest and largest RC&D Council in Tennessee. In 1972, the Council expanded to its current capacity of the 14 counties in the Upper Cumberland region: Cannon, Clay, Cumberland, DeKalb, Fentress, Jackson, Macon, Overton, Pickett, Putnam, Smith, Van Buren, Warren, and White.

Council Mission: Provide leadership to local communities to improve the quality of life and conserve natural resources by organizing partners and facilitating technical and financial assistance resources.

Council Goals: The goals of the Hull-York Lakeland RC&D Area are based on four element categories identified in the RC&D area plan in compliance with Section 513.B of the USDA-NRCS Resource Conservation & Development Program Manual.

- LAND CONSERVATION** – *Improve land resources through natural resources management and conservation.*
- LAND MANAGEMENT** – *Improve the utilization and protection of land resources.*
- WATER MANAGEMENT** – *Improve the management of water resources.*
- COMMUNITY DEVELOPMENT** – *Advance economic, educational, social and cultural opportunities to achieve community sustainability.*

OTHER:

- EQUAL OPPORTUNITY AND CIVIL RIGHTS** – *All goals, objectives, and strategies in the HYL FY 2010 Plan of Work are directed to benefit the general public including minorities, females, those with limited resources, the disabled and other underserved groups. USDA is an equal opportunity provider and employer.*

These goals are broad based and reflect a long term response addressing a wide range of needs. They are supported by more specified goals in the FY 2010 Plan of Work and directly referenced from the Hull-York Lakeland RC&D Area Plan (2006-2010).
